

# Lab 01: Installing Linux

---

1. Download the latest version of RHEL from <https://developers.redhat.com>.
2. Create a new virtual machine in Oracle VirtualBox to use with RHEL.
3. Install the latest version of RHEL from step 1 in the new VM from step 2.

Use the two boxes below to submit two screenshots from step 2:

Use the boxes below to insert two screenshots from step 3:
